Weekly owner brief

Last week’s management commitments, checked against meeting notes, customer email, ERP orders, accounting and the management chat.

Needs your decision

Two decisions need you.

What changed	HAI recommends
1. A customer can no longer buy, but three tasks still chase the old plan.	Give one dated answer, or release the customer in writing.
2. A deal we won depends on a supplier we still owe.	Settle the supplier first, then sublease instead of buying.

Commitments checked

Commitment	Evidence	Status
Replacement for Customer B	Customer’s latest reply	Not secured
Settle Supplier S	Payables	Still open
Clean the pipeline	ERP unchanged since early October	Contradicted
Print material for the show	Approval recorded	Done

Also found

Done is not done: two tasks marked done have not moved in the ERP, and three marked open are already done.

We were about to ask the supplier for a new arrangement while an overdue balance was still open.

Not read in this run

Five managers’ mailboxes. HAI says what it could not see.
